Just as the sun sets, the wild Little Penguins emerge from the sea after a hard days fishing and waddle across the sand to their dune burrows. These Little Penguins are the smallest of the penguin species and Phillip Island is home to the largest colony in the world. Park, the site of the Sydney 2000 Olympic Games. You'll see the grand stadiums that are still used for more than 5,000 events each year.

OR

Option 2 - Blue Mountains Tour with Jenolan Caves Highlights: Katoomba, The Three Sisters, Jamison Valley, Jenolan Caves, Lucas or Imperial Cave and Blue Lake

As you head toward the iconic Blue Mountains, you'll drive through the tourist town of **Katoomba**, which first became known in 1879 when a coal mine was established here. On reaching at **Echo Point** you'll be treated to a view that is spectacular. This mountainous World Heritage region covers an area of up to 10,000 square kilometres and features dramatic cliffs, deep canyons and lush vegetation, particularly eucalypt. When first discovered by the European visitors, the Blue Mountains had already been home to the Gundungurra people for what is believed to be millions of years and evidence of their culture and spirituality can be found throughout the region. Also from Echo Point you can see the imposing **Three Sisters**. Now you head to the **Jenolan Caves** via the stunning scenery of the Cliff Drive. On arrival you'll meet your experienced Guide who will take you through the oldest known open cave system in the world. Known to the local Aboriginal people as 'Binoomea' (Dark Places), the Jenolan Cave system stretches over an enormous 40 kilometres of multi-level passages, many still undergoing explorations. There are nine caves open to visitors, all featuring amazing lighting, underground rivers and limestone formations. You'll be captivated by Lucas Cave, the largest of the Jenolan Caves. Its chambers are simply incredible. The highest chamber, reaching 54 metres, is known as the Cathedral and, with its incredible acoustic capabilities, has provided the setting for many underground concerts. At certain times, Lucas Cave will be replaced with a visit to Imperial Cave. Before heading back to the city, you simply must take in the beauty of the Blue Lake. This gorgeous sight is the result of mineral laden water seeping through the limestone caves. When cast in sunlight, the lake takes on the most captivating vivid blue colour. Definitely a great photo opportunity! Overnight at Hotel in Sydney. (B)
